

Evgeny Denisov

Male, 33 years, born on July 27, 1989

E-mail: evgenij.denisov@gmail.com — preferred means of communication

LinkedIn: <https://www.linkedin.com/in/evgeny-denisov-748b10129>

Citizenship: Russia. Current location: Montenegro. Willing to relocate to EU.

Desired position: Software Developer

Employment: full time, flexible schedule.

Skills: Services integration, Web API.

Technologies: Python, Django, aiohttp, FastAPI, Git, Gitlab, CI/CD, Linux, OpenAPI, Docker, PostgreSQL, SQL, Redis, RabbitMQ, Kafka.

About me: I enjoy refactoring and embedding new features into existing architectures with high attention to details. Besides Python, I have some knowledge in other programming languages: C++, C#, JavaScript. When I play video games and see some interesting mechanics, I always think: "How would I implement it?" I believe I am capable of this. This is why I decided to change my field of activity.
